

# **Technische Universität Dresden**

## **Enrolment Regulations**

as per 01 June 2012

Pursuant to § 13 par. 3 of the Saxon Higher Education Act (*Sächsisches Hochschulgesetz - SächsHSG*) of 10 December 2008 (SächsGVBl. p. 900), last amended by section 21 of the Act of 15 December 2010 (SächsGVBl. p. 387, 400), the Senate of Technische Universität Dresden enacted the following Enrolment Regulations as statutes.

### **Table of contents**

#### **Part 1: General provisions**

- § 1 Area of applicability
- § 2 Responsibilities
- § 3 Processing of personally identifiable information (PII)
- § 4 Fees

#### **Part 2: Enrolment and admission**

- § 5 Form of and deadline for enrolment applications
- § 6 Enrolment
- § 7 Language skills
- § 8 Parallel studies
- § 9 Admission to limited entry programmes (allocation of university places)

#### **Part 3: Provisions concerning the current legal status of students**

- § 10 Standard period of study
- § 11 Re-registration
- § 12 Leave of absence

#### **Part 4: Termination of enrolment**

- § 13 Termination of enrolment

#### **Part 5: Special applicants and students, auditors and early-entry students**

- § 14 Foreign applicants
- § 15 Disabled and chronically sick students
- § 16 Doctoral students
- § 17 Auditors and early-entry students

#### **Part 6: Transitional and final provisions**

- § 18 Transitional provisions
- § 19 Final provisions

## Part 1: General provisions

### § 1

#### Area of applicability

These Regulations cover all aspects of admission, enrolment and termination of enrolment and also of the current legal status of students and contain rules regarding special groups of applicants and students, auditors and early-entry students at Technische Universität Dresden.

### § 2

#### Responsibilities

(1) The Rector is responsible for decisions made pursuant to these Regulations.

(2) For German applicants and students and also for foreign applicants and students who obtained their qualification for admission to higher education at a school under German school laws (applicants and students with a German *Abitur*), and for foreign applicants and students for / in distance learning programmes, decisions are made by the Student Registration Office of Technische Universität Dresden on behalf of the Rector, unless otherwise stated in these Regulations. The Office is originating public authority and appeal authority. Please submit applications and appeals to

Technische Universität Dresden  
Immatrikulationsamt  
D-01062  
Dresden.

(3) For all other foreign applicants and students decisions are made by the International Office of Technische Universität Dresden on behalf of the Rector, unless otherwise stated in these Regulations. The Office is originating public authority and appeal authority. Please submit applications and appeals to

Technische Universität Dresden  
International Office  
D-01062  
Dresden.

### § 3

#### Processing of personally identifiable information (PII)

The authorities responsible pursuant to § 2 par. 2 and 3<sup>1</sup> and also to § 17 process personally identifiable information of applicants, students, auditors and early-entry students pursuant to § 14 par. 3 sentence 1 SächsHSG for the purpose of § 14 par. 1 no. 1 SächsHSG where that information is necessary for the exercise of their functions.

### § 4

#### Fees

Whether for individual matters, covered by these Regulations, fees are levied

---

<sup>1</sup> §§ references without indication of laws refer to provisions contained in these Regulations.

and also the determination of their legal grounds and amount depend on the current Higher Education Fees and Charges Regulations of Technische Universität Dresden.

## **Part 2: Enrolment and admission**

### § 5

#### Form of and deadline for enrolment applications

(1) The application period for enrolment in programmes with unrestricted admission for the winter semester is from 01 June through 15 September and for the summer semester from 01 December through 15 March each year. For limited entry programmes it is necessary that you apply for enrolment in derogation from sentence 1 within the period of declaring your acceptance of the university place.

(2) In derogation from par. 1 the deadlines stated in § 14 apply to stateless applicants and for applicants with foreign citizenships, who are not considered equivalent to German applicants.

(3) As a rule, enrolment applications are submitted via an online application portal. The authority responsible pursuant to § 2 par. 2 and 3 will decide upon type and form of the documents attached to the enrolment application. You are expected to send the enrolment application as an electronic application form within the deadlines stated in par. 1 to the appropriate authority. The deadline for submitting the documents is separately defined. It is incumbent upon applicants to make a prima facie case that the electronic application process is unreasonable for them. As a result they will be allowed to submit a written enrolment application; sentence 2 shall remain unaffected.

### § 6

#### Enrolment

(1) Upon enrolment all applicants become students and members of Technische Universität Dresden. Students are handed a student ID card, a confirmation of enrolment and a transcripts booklet, as a rule. Notify the appropriate authority of any changes of your personal information, in particular name and address, pursuant to § 2 par. 2 and 3 without delay.

(2) Enrolment is complete when you are handed your documents pursuant to section 1 sentence 2; it becomes effective at the beginning of the relevant semester, as a rule. If an applicant is enrolled only on a date after the semester has started, enrolment becomes effective on this date in derogation from the provisions above; it is not possible to backdate your enrolment. You will be informed about refusal to be enrolled by an appealable order.

(3) As a rule, students are enrolled in a degree programme, regardless whether they applied for direct studies or distance learning, a full-time or part-time study or a postgraduate programme.

(4) Applicants are enrolled when

1. they have submitted proof that they meet the admission requirements necessary for the selected programme,
2. have been admitted to a limited-entry degree programme,
3. have health insurance or are exempt from mandatory health insurance,

4. have proved to have fulfilled their obligation to pay the fees or contributions accruing upon enrolment,
5. are not yet enrolled at a German university, unless the parallel study serves the purpose of the primary study; § 8 shall apply here;
6. have not yet failed an exam at the final attempt and this exam is a prerequisite for the successful completion of the chosen degree programme,
7. have completed at least one attestation defined in the examination regulations when enrolled earlier in the same or a similar degree programme at a German university within the last four completed regular degree semesters,
8. have not yet successfully completed the chosen degree programme.

(5) Applicants are denied enrolment unless they fulfil one or more of the conditions laid down in par. 4.

(6) Applicants can be denied enrolment in particular if

1. they failed to apply for enrolment in due form and time,
2. they are under guardianship in accordance with the provisions of the Civil Code (*Bürgerliches Gesetzbuch*),
3. cannot be enrolled for certain degree semesters,
4. fail to have the necessary language skills pursuant to § 7,
5. have an illness that places other students at a serious health risk or disrupts university processes; an official medical certificate issued by the public health officer can be requested,
6. they were finally sentenced to at least one year of imprisonment because of committing a deliberate crime, the sentence is still subject to unrestricted disclosure and if the type of criminal offence may pose a risk to academic operations.

(7) Enrolment is made for a limited period in case

1. the applicant takes only some degree semesters at Technische Universität while being enrolled in a degree programme at another university,
2. Technische Universität Dresden offers only individual parts of a degree programme,
3. the applicant was provisionally admitted because of a court order,
4. the applicant failed to provide evidence in good time of the first job-qualifying degree that is necessary for being admitted to a Master programme, but can prove that s/he has completed 80 % of the credits achievable in the degree programme as a result of passed module examinations or the final thesis and even the colloquium by providing a confirmation of the home university. In this case, enrolment is limited to the first regular degree semester. Unless students provide a confirmation of having completed the necessary first job-qualifying university degree during the re-registration period for the second regular degree semester, it is impossible to be enrolled for another limited period and re-registration is excluded.

(8) If the applicant had already been enrolled in the same kind of degree programme at a German university, enrolment is made ex officio in the next higher regular degree semester on the basis of the completed study period. If the applicant was enrolled in a different degree programme at a university, s/he will be enrolled in a higher regular degree semester only upon application and upon producing a Certificate of Credits Achieved (*Anrechnungsbesccheinigung*) issued by the Examination Committee. If students submit an application for the recognition of credits from another degree programme after enrolment in the 1st regular degree semester of the chosen programme with the responsible Examination Committee and in case of successful recognition, this implies the automatic recognition of the period of studies

completed pursuant to the valid examination regulations. In this case, the student is retrospectively enrolled ex officio in the higher regular degree semester (upgrading).

(9) Regular degree semesters are all semesters completed in the same kind of degree programme at German HE institutions, time spent on leave of absence is excluded. The period of studies completed in other programmes and recognised by the responsible Board of Examiners also qualifies as regular degree semester/s. University semesters (*Hochschulsemester*) are all semesters including absence of leave when the student was enrolled at a German HE institution.

(10) In derogation from paragraphs 4 – 8, § 16 shall apply to the enrolment of doctoral students.

## § 7

### Language skills

(1) Applicants, who did not obtain their university entry qualification at a German-speaking institution, are required to prove German language skills that qualify for studies in higher education (language skills necessary to study). Applicants can prove their skills by producing

1. the German language test for university admission (DSH) with the final result of DSH 2 or better,
2. the „Test German as a Foreign Language for Applicants“ (TestDaF) with the result TestDaF 4 or better in all parts of the exam or
3. the passed German exam as part of the assessment test (*Feststellungsprüfung* FSP).

For studying in mixed German-English programmes, where most of the classes are taught in English and where exams and assessments can be taken either in German or in English, applicants can also prove their qualification in derogation from sentence 2 by producing

1. the German language test for university admission (DSH) with final result DSH 1 or better or
2. the „Test German as a Foreign Language for Applicants“ (TestDaF) with the result TestDaF 3 or better in all parts of the exam.

.

(2) Pursuant to par. 1 there applicants that are ex officio exempt from producing an attestation of their language skills necessary to study. These are:

1. applicants with German Abitur,
2. students with a „German Language Diploma of the Ministers of Education and Cultural Affairs level II“ (DSD II),
3. students with a certificate of the „Central Advanced Exam“ (ZOP) of the Goethe-Institut, either taken at a German or foreign Goethe-Institut or an institution with an examination mandate of the Goethe-Institut,
4. students with a „Kleines Deutsches Sprachdiplom“ (small German language diploma) or „Großes Deutsches Sprachdiplom“ (advanced German language diploma) granted by the Goethe-Institut on behalf of the Ludwig-Maximilians-Universität München,
5. Applicants for degree and other programmes and doctoral students in academic

programmes where classes are held exclusively in English or

6. foreign applicants who complete only individual degree semesters at Technische Universität Dresden (exchange students).

(3) Other language certificates will be accepted if they are equivalent to the language exams listed above.

(4) Language skills that may be defined as entry qualifications in the study regulations for the chosen degree programme remain unaffected by the above provisions. These skills are tested for enrolment pursuant to § 6 par. 4 no. 1.

## § 8

### Parallel studies

(1) If it serves the purpose of the student's educational goals and is feasible within the time limits, the student can enrol for another programme at Technische Universität Dresden even after the applicant is already enrolled in one or more other programmes either at Technische Universität Dresden or any other German university (parallel studies).

(2) Applicants who are already enrolled at Technische Universität Dresden must apply for taking up parallel studies within the time limits set in § 5 par. 1 by filling the appropriate form. The application serves to justify why taking up parallel studies serves the student's educational goals. Regardless of other admission requirements, students will only be enrolled if the responsible departments confirm that the parallel studies intended serve the purpose of the student's educational goal. Please enclose the opinions with the application pursuant to sentence 1. Parallel studies end upon the student's application. Parallel studies will be terminated ex officio if there is reason for termination of enrolment in one or both programmes pursuant to § 13; the student is sent a notification that this decision may be appealed.

(3) Students, who are already enrolled at another German university, will be enrolled as visiting students in case they meet all admission requirements and the requirements for taking up parallel studies at Technische Universität Dresden. For this purpose, please enclose the application for visiting students with the enrolment application. The application serves to justify why taking up parallel studies serves the student's educational goals. Regardless of other admission requirements, students will only be enrolled if the responsible department of Technische Universität Dresden confirms that the parallel studies intended serve the purpose of the student's educational goal. Please enclose the department's confirmation with the applications pursuant to sentence 2. § 13 shall apply to termination of enrolment.

## § 9

### Admission to limited entry programmes (allocation of university places)

(1) The decision whether a degree programme is a limited-entry programme is made on the basis of the *Sächsische Zulassungszahlenverordnung* (SächsZZVO Saxon Regulations Governing Student Admission Numbers) for the relevant academic year.

(2) The allocation of university places in limited-entry, undergraduate degree programmes follows the *Sächsisches Hochschulzulassungsgesetz* (SächsHZG Saxon University Admissions Act), the *Sächsische Studienplatzvergabeverordnung* (SächsStudPIVO Saxon Regulations Governing the Allocation of University Places) and the *Auswahlsatzungen*

(Selection Statutes) of Technische Universität Dresden. University places for limited-entry Master's programmes are allocated pursuant to the provisions of SächsHZG and also the Regulations Governing the Allocation of University Places in Limited-Entry Master's Programmes (*Vergabeordnung* – Allocation Regulations) of Technische Universität Dresden and the Selection Statutes of Technische Universität Dresden. These provisions remain unaffected by the provisions of these Regulations.

(3) University places for the 1st regular degree semester in undergraduate degree programmes that have limited admission at a national level are allocated by the *Stiftung für Hochschulzulassung* (Foundation for University Admissions). University places in all other programmes and also for higher regular degree semesters of undergraduate programmes with limited admission at a national level are allocated by Technische Universität Dresden unless the university relies on the service process provided by the *Stiftung für Hochschulzulassung*.

### **Part 3: Provisions concerning the current legal status of students**

#### § 10

#### Standard period of study

(1) The standard period of study is the time frame within which students can complete a degree programme. This period includes times of subject-related practical work, practical semesters and examination periods that are part of the degree programme. The relevant Study Regulations govern the standard period of study for the individual degree programme.

(2) The times listed below do not count towards the standard period of study:

1. leave of absence,
2. times when students for reasons beyond their control were unable to pursue studies properly throughout the whole semester, at least there were such cogent reasons that were beyond their control, however, that compare with a total intermission of studies; permanent reasons are excluded, however,
3. times that result from failures to meet deadlines in exam procedures and these failures being beyond the student's control and the underlying reasons not being permanent, if the duration of studies has been extended by at least one semester and unless no. 2 applies,
4. the period of one semester if students were an active elected member in the bodies of Technische Universität Dresden pursuant to SächsHSG, the *Studentenschaft* or the *Studentenwerk Dresden* for at least one term of office (*Gremienzeit* – periods spent working in university bodies),
5. the period of three semesters in case of several years of *Gremienzeit* pursuant to no. 4.

(3) Die Zeiten der Beurlaubung werden von Amts wegen berücksichtigt. Leaves of absence are automatically not counted towards the standard period of study. If you wish to have leaves of absence pursuant to par. 2 no. 2 - 5 counted towards the standard period of study submit a formal application with the authority that is responsible pursuant to § 2 par. 2 and 3. You will need to provide proof of these times. If times of absence result from a student's own illness, s/he is required to provide written documentation either from a medical specialist or, if necessary, from a public health officer. Periods pursuant to par. 2 no. 4 and 5 must be confirmed in writing by the chairperson of the body. They will be acknowledged only for the degree programme in which the student is enrolled while working for the academic body. The

decision about the recognition of times pursuant to par. 2 no. 2 - 5 is communicated by a notification that this decision may be appealed.

## § 11 Re-registration

(1) Students are required to re-register in their degree programme in the appropriate form and in due time each semester.

(2) Re-registration is to be made with the authority that is responsible pursuant to § 2 par. 2 and 3. The re-registration period for the winter semester is from 01 July to 05 September and for the summer semester from 15 January to 05 March each year. In justified cases these deadlines can be extended. If students apply for switching to a limited-entry degree programme, the re-registration period ends one week after the notification of the result of the selection procedure has been delivered. Late re-registration, which is not accepted pursuant to sentence 2, may result in termination of enrolment pursuant to § 13 par. 3 no. 2.

(3) Re-registration is considered complete upon issuance of the current student identity card and the current confirmation of enrolment to the student. The student is re-registered when all due fees (*Studentenschaft* and *Studentenwerk*) and - where appropriate - also tuition fees (including possible reminder fees) have been paid in accordance with the fee regulations in force and received by Technische Universität Dresden and unless there are reasons for the student to be removed from the student register. The student's status is also considered registered if s/he applies for leave of absence during the re-registration period; sentence 2 shall apply accordingly.

## § 12 Leave of absence

Students may apply for leave of absence for good cause. While on leave of absence, the students' rights and obligations with the exception of the obligation to pursue studies properly remain unaffected.

Good reasons as defined by paragraph 1 are conditions that considerably affect studies for a period of time and that are not the responsibility of the student or conditions that are of benefit to studies. These are in particular:

1. a student's own illness that rendered him/her unable to pursue studies properly throughout the whole semester, or at least to an extent that is equivalent to a break from studies for a whole semester; permanent illnesses are excluded,
2. statutory maternity or parental leave,
3. caring for own child that is not older than 14 years, unless leave of absence has already been granted pursuant to no. 2,
4. an internship that serves the purpose of studies,
5. studies abroad.

(3) Leave of absence may be granted for a maximum period of 2 semesters. More than two semesters of leave of absence can be granted, in particular in these cases:

1. leave of absence because of statutory maternity or parental leave (up to 6 additional semesters),
2. leave of absence to care for own child that is not older than 14 years (up to 4 additional semesters),
3. leave of absence for studies abroad.

(4) Students are required to submit the proper application form for leave of absence during the re-registration period; as a rule, it is impossible to backdate leave of absence. You will need to provide proof of the reason for leave of absence by producing suitable documents. You will be informed about refusal to take leave of absence by an appealable order.

(5) In case of parallel studies pursuant to § 8 par. 2 leave of absence can only be granted for all programmes simultaneously.

#### **Part 4: Termination of enrolment**

##### § 13 Termination of enrolment

(1) Upon termination of enrolment the student is no longer a member of Technische Universität Dresden.

(2) Enrolment of a student is terminated when s/he

1. files a formal application to be removed from the student register,
2. passed the final exam and is not enrolled in another degree programme,
3. has completed postgraduate studies that do not require a final exam,
4. has brought about enrolment by duress, fraud or bribery,
5. is enrolled in a limited-entry degree programme and his/her admission was cancelled or revoked by an unappealable or immediately enforceable order,
6. failed the final exam or failed to complete an attestation, which is a requirement for passing the final exam in accordance with the valid Examination Regulations, at the second and final attempt and is not enrolled in another degree programme,
7. would not be eligible for enrolment pursuant to § 6.

(3) Students can be removed from the university register if

1. facts become known that are related with their person and that may result in denial of enrolment,
2. they do not re-register in due form,
3. they do not take up studies in a degree programme without delay despite written request and under penalty of termination of enrolment.

(4) As a rule, termination of enrolment becomes effective by the end of the semester in which it was pronounced, unless students apply for termination of enrolment at an earlier date or there are reasons that require immediate termination of enrolment. It is, however, not possible to backdate enrolment. Sentence 3 shall not apply unless re-registration has been completed

in due form; in this case enrolment is terminated on the last day of the semester in and for which students most recently enrolled or were granted leave of absence in due form.

(5) Termination of enrolment, except for cases pursuant to par. 2 no. 1, is made by decision against which an objection may be lodged. Moreover, students who were removed from the university register, are issued a Certificate of Termination of Enrolment for private purposes and for submission to their statutory pension insurance.

(6) If students change degree programmes within Technische Universität Dresden, termination of enrolment is not required.

## **Part 5: Special groups of applicants and students, auditors and early-entry students**

### § 14

#### Foreign applicants

(1) Citizens of a member state of the European Union that is not Germany are treated like German citizens with regard to access to higher education and university admission if they meet the language requirements for studies pursuant to § 7. Applicants with a German university entrance certificate (*Abitur*) are treated like German applicants.

(2) Foreign applicants without German *Abitur* can be granted access to studies if they have an A-levels certificate/high school diploma that is equivalent to a German qualification for admission to higher education. Decisions about whether foreign qualifications are accepted for university access are made by the authority named in § 2 par. 3. The authority decides on the basis of the *Bewertungsvorschläge (BV) – Ausländische Bildungsnachweise und ihre Bewertung in der Bundesrepublik Deutschland* (Assessment Proposals – Foreign Qualifications and their Assessment in the Federal Republic of Germany), published by the Secretary of the Standing Conference of the Ministers of Education and Cultural Affairs of the *Länder*, Central Office for Foreign Education. Unless direct access to higher education can be granted on the basis of the Assessment Proposals, the applicant must qualify for university access by taking the Examination to Determine the Suitability of Foreign Applicants for Taking Up Studies at HE Institutions in the Federal Republic of Germany (FSP).

(3) Foreign applicants, who are not treated like German applicants can be enrolled on a limited time basis pursuant to § 7 of these Regulations in order to get prepared for and take the FSP or to attend a suitable language course, if they received a letter of conditional admission (reserved place) for a degree programme at Technische Universität Dresden and passed the qualifying test for the Introductory Course (*Propädeutikum*).

(4) For applicants who must take the Introductory Course before taking up studies, the following application deadlines shall be observed:

for the winter semester: 01 April – 31 May  
for the summer semester: 01 Oct. – 30 Nov.

In all other cases, the following application deadlines shall be observed:

for the winter semester: 01 April – 15 July

for the summer semester: 01 October – 15  
January

(5) Applicants who are not citizens of another member state of the European Union must produce a valid residence permit for the *Länder*, e. g. a valid residence permit for the purpose of studying. If a residence permit is not produced, enrolment is denied. § 5 sec. 3 sentence 2 shall remain unaffected.

#### § 15

##### Disabled and chronically sick students

(1) The Technische Universität Dresden takes suitable measures within the bounds of possibility to ensure that disabled or chronically sick students are not put at a disadvantage during their studies and can enjoy the offers of the university without the help of others, as far as this is possible. For this purpose, a particular effort is made to reduce barriers throughout the university and to extend the counselling and information service to meet the special needs of disabled students. Technische Universität Dresden appointed a representative of disabled and chronically sick students.

(2) Measures to ensure equal opportunity for disabled and chronically sick students in examination procedures comply with the current examination regulations.

#### § 16

##### Doctoral students

(1) Doctoral students are students who seek a doctoral degree at Technische Universität Dresden, regardless whether the degree is pursued on the basis of graduate studies pursuant to § 42 SächsHSG or otherwise, and who are enrolled for this purpose.

(2) Students need to apply for enrolment pursuant to § 5 par. 3 by submitting an application form to the relevant authority pursuant to § 2 par. 2 and 3. As a rule, deadlines apply to graduate studies applications pursuant to § 5 and § 14.

(3) Enrolment as a doctoral student is always limited in time. If doctoral students pursue graduate studies, the enrolment is limited to the regular time frame of semesters, in all other cases enrolment is limited to 6 semesters. Doctoral students can apply to extend the limitation period. For this purpose, students need to produce an approval letter of the responsible doctoral board and their doctoral adviser; The approval letter should also state the expected duration of the doctoral project. The application to extend enrolment shall be made not later than one month before the end of the time-limited enrolment with the responsible authority pursuant to § 2 par. 2 and 3. Upon termination of enrolment, the student is no longer a member of Technische Universität Dresden. Termination of enrolment is therefore not necessary.

(4) Applicants are enrolled

1. to a graduate programme if they meet the admission requirements defined in the relevant study regulations,

2. if a doctorate is pursued otherwise, if the applicant was formally admitted to doctoral studies pursuant to the relevant Regulations for PhD Degrees and was inscribed in the list of doctoral students of the relevant faculty; in this case enrolment is made in the subject to which the

subject of the doctorate can be assigned; if the subject of the doctorate is interdisciplinary, enrolment is made in the programme the doctoral supervisor belongs to,

3. after applicants have proved to have fulfilled their obligation to pay the fees or contributions accruing upon enrolment,

4. unless applicants are already enrolled at a German university, unless the parallel study serves the purpose of the doctoral study;

(5) Applicants are denied enrolment unless they fulfil one or more of the conditions laid down in par. 4.

(6) Applicants can be denied enrolment in particular if

1. they are under guardianship in accordance with the provisions of the Civil Code (*Bürgerliches Gesetzbuch*),

2. fail to have the necessary language skills

3. suffers from an illness that could be a serious risk for other students or disrupts the university's operations; applicants can be asked to submit a medical certificate or – in case of doubt – the certificate of a medical officer.

4. they were finally sentenced to at least one year of imprisonment because of committing a deliberate crime, the sentence is still subject to unrestricted information and if the type of criminal offence may pose a risk to the academic operations.

(7) Enrolment is terminated

1. upon the doctoral student's application

2. after the successful completion of the doctorate or

3. after doctoral students unsuccessfully terminated their studies without the desired result.

(8) A doctoral student can be removed from the university register if

1. facts become known that are related with his/her person and that may result in denial of enrolment,

2. s/he did not re-register in due form.

(9) §§ 5 and 6 par. 1 - 3 and also §§ 7, 10, 11 and § 12 shall apply accordingly.

## § 17

### Auditors and early-entry students

(1) Unless there are any course restrictions for lectures and seminars, those persons interested in attending, who are not legally qualified for admission to higher education (*Abitur* or other university entry qualifications) pursuant to § 17 SächsHSG, can be admitted as auditing students. If you wish to audit courses, submit an application to the Centre for Continuing Education of Technische Universität Dresden. If applicants are admitted they are issued an auditing student card that confirms they are admitted to certain courses taught at Technische Universität Dresden for a period of time. Auditing students cannot claim academic credit neither are they admitted to completing assignments or taking any exams. You will be informed about refusal to be admitted as an auditor by an appealable order.

(2) Pupils who pursuant to § 19 par. 2 SächsHSG are particularly talented can be admitted as

early-entry students to attend classes and take exams and assessments in accordance with the Regulations Governing Participation in the University for Schoolchildren (*Schüleruniversität*) of Technische Universität Dresden. Applications shall be made to the Central Student Information and Counselling Services of Technische Universität Dresden. In case of admission, early-entry students get a card confirming their admittance to Technische Universität Dresden for a certain period of time. You will be informed about refusal to be admitted as an early-entry student by an appealable order.

(3) Being admitted as an auditing student and/or early-entry student does not make you a member of Technische Universität Dresden.

## **Part 6: Transitional and final provisions**

### § 18

#### Transitional provisions

(1) After these Regulations had come into effect at Technische Universität Dresden, they are directly applicable to enrolled students, visiting students and doctoral students and also to all auditing and early-entry students admitted in accordance with these Regulations.

(2) For all students, visiting students and doctoral students, who had already been enrolled before the time these Regulations came into effect, and also for all auditing and early-entry students, who had already been admitted at this time, these Regulations become applicable only two years after they had come into effect. Until this time the Enrolment Regulations of 01 April 1991 shall apply irrespective of § 19. § 16 par. 2 – 6 are not at all to be applied to doctoral students already enrolled at the time these Regulations came into effect.

(3) Limitation of enrolment pursuant to § 6 par. 7 no. 4 is practiced in accordance with the valid provisions of the Regulations Governing Aptitude Tests (*Eignungsfeststellungs-ordnungen*) by the end of the winter semester 2012/13 in the Master programmes and also pursuant to § 2 par. 4 of the Regulations Governing the Allocation of University Places in Limited-Entry Master Programmes of 05 June 2009.

### § 19

#### Final provisions

These Regulations will come into effect on the day after they are published in the Official Notices of TU Dresden. As soon as these Regulations come into force, the Enrolment Regulations of 01 April 1991 will cease to be effective.

Issued as a result of the Senate's decision of 11 April 2012.

Dresden, 01 June 2012

The Rector  
of Technische Universität Dresden  
Prof. Dr. Dr.-Ing. habil. Hans Müller-Steinhagen
