- Pedagogical Competence!**
- 1 Setting clear objectives
 - 2 Uphold the threshold level of quality
 - 3 Create a course which generates appropriate learning activity
 - 4 Doing this while using teacher-time activity

The Teaching Trick

How to improve student learning without spending more time teaching

KEYNOTE - Tag der Lehre 2017
15.11.2017 @TU Dresden

Trick Family Dinner

Old: week 1 START 2 3 4 5 6 7 8 END

New: week 1 Workshop week 2 ...

- + Feedback-Session
- + Peer-Feedback
- + easy marking

⇒ it only takes 1-3 min. per paper and the lecturer is home for family dinner

FAIL = 0p
 PASS = 1p
 BRILLIANT = 2p
 + WRITING FEEDBACK = 1p

WHY

The principle is to separate the processes

a) feedback for learning
 student group-learning
 social motivation

b) assessment for grading
 by teacher
 minimalistic
 PASS - FAIL - BRILLIANT

BOTH CAN BE MADE COST-EFFECTIVE

- The Tricks imply quality time with the students
- ✓ more meaningful
 - ✓ adds value
 - ✓ more fun
-
